

## INTELLIGENCE *Plus Character*

What is excellence in education? Is it a score on a standardized test or perhaps admission to a top college? At Logos Academy we believe these are important, but intelligence alone is not enough to make a meaningful contribution to our community and the world. Students must learn to love what is good, to serve, and to lead with integrity and vision. The equation for shaping the virtuous leaders of tomorrow must include "intelligence plus character."

*"...We must remember that intelligence is not enough. Intelligence plus character—that is the goal of true education."* -Martin Luther King, Jr.

### A Different Type of School

In 1998, two women with no formal background in education were moved by their faith in Christ to start a school where every student could receive an excellent education, regardless of their family's income. Today, Logos Academy, an independent school accredited by Middle States Association, serves over 275 students in grades K-12. Two-thirds of these students live at or near the federal poverty line. Without the aid of government funding, generous donors give scholarships to make it possible for students who normally would not be able to afford tuition at Logos Academy to attend at just a fraction of the price. Everybody pays something to attend. The results speak for themselves. Students from across the economic and cultural spectrum succeed at Logos Academy and go on to a meaningful future professionally, academically, and spiritually.

### Welcoming All

As a school that is grounded in the love of Christ, Logos Academy has an "open-enrollment" policy that warmly welcomes students from any faith or no faith background. We seek and celebrate cultural diversity among our students and staff. Students are encouraged to engage in respectful dialogue around a variety of ideas surrounding academic subjects and societal challenges.

## MEET *Sarah*

A member of the class of 2020, Sarah has attended Logos Academy since 6th grade. She grew up in a military family, living in several states up and down the east coast prior to arriving in York. Sarah notes that Logos Academy is the first school where she has felt at home and where the teachers seem to care deeply, providing a highly valuable education. At 16 years old, she is the youngest member of the senior class and has impressive academic achievements. She holds the title of second highest GPA in her class, is part of the National Society of High School Students (NSHSS), and is currently taking a course on Public Speaking at Lancaster Bible College with a few of her fellow classmates. Sarah is fluent in English, Spanish, and Haitian Creole, and hopes one day to be fluent in French, achieving her goal of being quadrilingual. When Sarah is not at school, she can be found either working at her after school job at Pho Bistro, reading historical fiction, or playing the violin, which she has played for four years. After she graduates, Sarah hopes to go to college to pursue a career as a sociologist or a lawyer, both professions in which she can use her gifts and abilities to help others. Sarah's time at Logos Academy has developed her into a young adult who possesses intelligence and character.

### Portrait of a Graduate

*Logos Academy is committed to shaping the minds and hearts of our students. Our graduates will become:*

**Lovers  
of God**

**Lovers  
of Creation**

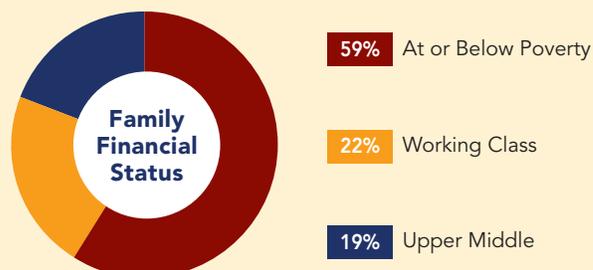

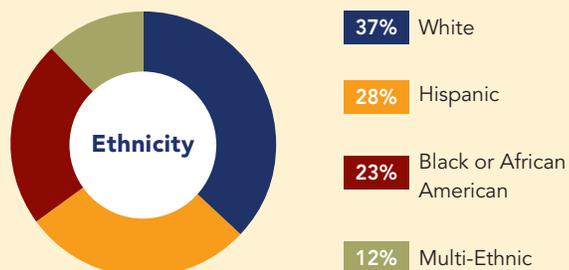

**Lovers  
of People**

**Lovers of  
Truth, Beauty  
& Goodness**

# SCHOOL Statistics
